

Part 2 History Tab

If the provider feels as though he or she needs to see information about a patient relative to alcohol or substance abuse, he or she can click the "Part 2 History" tab at the top of the patient record screen:

- A disclaimer will appear on the screen asking the provider to certify an active treating relationship with the patient and a reminder to not disclose this information to others without the patient's written consent.
- The provider can decide to either 'cancel' or click 'ok'.
- I certify that I have an active treating relationship with this patient and need to review the substance abuse information of this patient in order to provide the patient with treatment or coordination of care purposes.

 This information has been disclosed to you from records protected by Federal confidentiality rules (42 CFR part 2). The Federal rules prohibit you from making any further disclosure of this information unless further disclosure is expressly permitted by the written consent of the person to whom it pertains or as otherwise permitted by 42 CFR part 2. A general authorization for the release of medical or other information is NOT sufficient for this purpose. The Federal rules restrict any use of the information to criminally investigate or prosecute any alcohol or drug abuse patient.

 OK Cancel
- If the provider clicks 'ok', any information from the Part 2 facility will populate the patient's record in the Viewer, including the clinical summary (which will appear under the *Documents* tab).
- If there is no Part 2 History information for the patient, here is the message that will be displayed when the provider clicks "ok":
